Evidence of Better Business at Cincinnati.

Collector Dowling Preparing for a Big Rush in the Whisky Trade.

Appraiser Schulte Busy since the Report of the Agreement on the Tariff Bill.

CINCINNATI, Aug. 15.—The effect of the passage of the tariff bill is already noticeable in local trade, as indicated by the statements of the different government officials. Collector Dowling has made preparations for a big rush to take whisky out of bond. That he was correct in his calculations was evidenced early Tuesday morning, when the order for the same was issued from the distilleries. Among the first checks to appear was one for \$50,000, from the Clifton Springs distillery. Other checks came in rapidly, with the indication that the day's receipts would run up to the enormous sum of \$500,000 or more than that, being received by the local collectors in one day in the history of this district.

Another check, it is said, will arrive within the next few days, and is even larger than the one drawn by the Clifton Springs Co. This check, it is said, will be for about \$150,000, and will come from the Consolidated Distilling Co.

Collector Dowling has for some time had his force of men already on the whisky ready for the rush, and he thinks he will be able to get through without being compelled to call upon any of the regular collectors. His present force is working very hard.

Most of all the local distilleries will begin at once to increase their output, several of them have already doubled their forces, while others have materially increased their help.

Appraiser Schulte has been busy since the report of the agreement of the house and senate. The customs brokers of the city are making rapid preparations to take care of the increased volume of business, as soon as the bill becomes a law.

There are about \$5,000,000 worth of imports now in the hands of the local customs officials. The merchants, the customs brokers say, will not wait for Appraiser Schulte to be officially notified of the passage of the bill, but will, as soon as they are assured of its becoming a law, begin to remove the goods from bond, paying the old tariff, and subject to a rebate after the appraiser receives official notification. This will cause an immense amount of business for the government officials, but the business houses need the goods and say that they must have them.

Especially in the case of staple dry goods, the merchants all being badly in need of their importations. There will be a tremendous rush to get this class of goods out.

The subsidiary forces are preparing for a big rush. Cashier Neely says that as yet there has been no change, but that there is evidence that the banks are preparing for great financial activity. Since the passage of the tariff bill, a number of a few days ago the merchants at Louisville, in need of their importations, began to take out those commodities which would be affected by the passage of the senate bill.

As a result of this there was received at the local subsidiary treasury morning \$24,000 from the collection of customs at Louisville, \$73,000 of that amount being in gold coin.

## FEELING IT.

Pittsburgh Manufacturers Report Revival in Business Orders.

PITTSBURGH, Pa., Aug. 15.—The passage of the tariff bill has already made itself felt in this district by a marked revival of business. Stocks in all lines of manufacture had been reduced to a minimum, especially in the case of glass. Tuesday several large orders were received by local manufacturers and many more are expected. In some lines of business the demand began today as soon as the passage of the tariff bill was assured, and the telephone wires were kept busy Monday night with orders for glass. It is asserted that a slight reduction in wages will be necessary in the case of glass works, the tin plate men and the iron and steel trade, but this has been conceded, the scales generally allowing for reductions to fit tariff changes. The dispute will be over the size of the cuts.

Bland Will Be Re-nominated.

CALIFORNIA, Mo., Aug. 15.—All the delegates to the Eighty-third democratic congressional convention, which met Tuesday night in this city. There is no opposition to the re-nomination of Hon. Richard T. Bland, the great silver advocate and known the world over as "Silver Bland," and his reelection will be by acclamation. He has never had any opposition since his first election as representative from Missouri.

## MAD LOUISIANIANS.

The Passage of the Free Sugar Bill Causes Intense Feeling Among Sugar Men.

NEW ORLEANS, Aug. 15.—The passage of the free sugar bill has caused intense feeling among the sugar men, some of whom were disposed to hold the Louisiana senators responsible for the unfavorable legislation, and even Justice White was denounced for his practical desertion of Louisiana to accept a position on the supreme bench at a moment when his services were so great a demand. The feeling is general that the action of congress will assist the republicans very materially, rendering four congressional districts, the first, second, third and sixth, doubtful.

The amended Wilson bill will hit Louisiana pretty hard, but the house free sugar, it is admitted on all hands, will cause complete ruin. It is urged that now is the time for the Louisiana sugar planters to beat themselves and congress and the country that they are now depending in common with the sugar trust.

It is probable that a mass meeting will be held to protest against the action of the house, and some other action will be shortly taken to bring the needs of Louisiana before the country.

## CANADIANS PLEASED.

A Speedy Revival in the Lumber, Harley and Wool Trade Expected.

TORONTO, Ont., Aug. 15.—The Canadians are delighted with the passage of the tariff bill.

In some respects they could not have been suited better, even if the Canadians themselves had the framing of the bill. For the last eight months the lumber, barley and wool trade of Canada has been stagnant, owing to the depression of export trade with the States. Now a speedy revival of all those industries is looked for.

The Canadian lumberman will get a free field for his goods in the States. He expects to do his own cutting. Ontario dealers have for months been accumulating large amounts of wool, which they will ship to the States when the bill becomes a law. Large shipments of barley will also be made.

Prefer a Dugout to Work.

MEYER, Ind., Aug. 15.—John Turner, a well known custom of this city, is starving himself to death in a dugout at the city jail. Seven days ago he was put in jail to work out a \$17 fine that had been assessed against him for intoxication. All prisoners are required to pound rock for which they are allowed \$1 per day. This Turner refused to do, and he was placed in the dugout, and has received nothing to eat since but bread and water. He will starve to death, he says, before he will work, and the officials say he will never see daylight and will receive nothing but bread and water until he does work.

## WHISKY TAX.

A Great Rush to Take Liquors Out of Bond.

It is Estimated That the Receipts Will Be \$23,000,000 This Month.

A Conservative Estimate Places Amount of Whisky in Bond at 60,000,000 Gallons.

WASHINGTON, Aug. 15.—Reports received from the treasury department Tuesday morning from whisky-producing states stated that there is a great rush to take whisky out of bond at the old rate of ninety cents a gallon before the new tax of \$1.10 per gallon becomes operative. At most of the large distilleries whisky in bond has already been gathered, ready upon payment of the tax to be withdrawn.

A conservative estimate places the amount of whisky in bond at 60,000,000 gallons. The average monthly consumption of whisky is between eight and nine million gallons. Since the increased tax on whisky was first put into the tariff bill the receipts from internal revenue have largely increased.

So far in this current fiscal year—one month and a half—the receipts have aggregated \$33,750,000 against \$30,875,000 for the corresponding period last year. For this month the total receipts are \$33,750,000 ahead of the same period last year. It is estimated that the total receipts from internal revenue for this month will float up \$23,000,000 because of the rush to withdraw whisky.

Until the new tariff bill becomes a law an opposite effect on customs revenue to that on internal revenue will be felt. Not since the tariff bill of 1893 passed have customs warehouses at the New York, Philadelphia and Baltimore, so crowded with foreign goods, awaiting the adjustment of tariff rates, which the new tariff bill makes a reduction all along the line, none of the goods now in custom bonded warehouses will be withdrawn until the present tariff is repealed, or the new bill or permits to be taken effect by the ten days limitation.

As only goods absolutely needed have been withdrawn since the tariff bill has been pending, its signature by the president will be a signal for a great rush to withdraw goods and take advantage of the reduced tariff duties. In view of the passage of the tariff bill the following figures are of interest.

The treasury estimate for the fiscal year 1905 aggregated revenues of \$234,477,748, from these sources: Customs, \$100,000,000; internal revenue, \$100,000,000; miscellaneous items, \$34,477,748.

The estimate of revenue under house bill will show that the total of \$121,025,172.32. The estimate of revenues under the house bill as amended and passed by the senate July 1, 1904, exceeds in the aggregate of both the two previous estimates, and gives the following showing:

Customs, \$100,000,000; internal revenue, \$100,000,000; miscellaneous items, \$34,477,748.

Total, \$234,477,748.

Under the house bill the ad valorem rates of duty showed a decrease of duty amounting to \$75,716.65; under the senate bill the increase of duty is shown at \$19,122,310.81.

See Her Husband for Wilting Her. HAZLETON, Pa., Aug. 15.—Geo. Kohler, of Towson, Md., was Monday night under the influence of whisky and began upbraiding his wife, using language which reflected upon her fidelity. The woman, who was slightly indignant, deliberately secured a butcher knife and plunged it three times into her husband's body. Kohler died Tuesday evening. The woman escaped.

Lumbermen Not Unnervously Depressed.

TACOMA, Wash., Aug. 15.—Lumbermen are not greatly depressed by the free lumber, not because cheaper labor in British Columbia would not render competition difficult, but because indications are not favorable to the further development of the lumber trade across the border, inasmuch as there is no assurance of free lumber being permitted.

Georgians Want Free Sugar, Etc. SAVANNAH, Ga., Aug. 15.—Savannah board of trade Tuesday called a meeting for Monday, August 30, for adoption of resolutions urging the senate to pass bills for free sugar, iron, coal and barbed wire. The board asks all commercial bodies throughout the United States to have meetings on the same day for the same purpose and telegraph their action to the senate.

Failed to Win's Re-election.

I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be exceeded and cheerfully recommend it." Twenty-five and 50 cent bottles for sale by Theo. C. Power, Drugist.

Many who have noticed the beautiful lighted stores of Messrs. W. C. Miner, J. H. and J. C. Peor have wondered what new style electric lamp they were using. The fact is, however, that the light is made from plain every day gas with the Welshbach incandescent burner and it can be fitted to any gas fixture in five minutes. The Welshbach consumes about half as much gas as the ordinary tin burner and gives nearly four times as much light and no flickering—absolutely steady soft, white light that is grateful to the most sensitive eye. For prices and full particulars call on Ballenger the Jeweler.

Mr. Thomas Batte, editor of the Graphic, Texas, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." Twenty-five and 50 cent bottles for sale by Theo. C. Power, Drugist.

**The Monk!**

By MATTHEW O. LEWIS.

(MONK LEWIS.)

Mr. Lewis was a member of the British Parliament, and his book became so popular in England a hundred years ago that it gained for him the title of "Monk Lewis."

It is a fine piece of classic composition, and after being out of print for many years it has been republished from the original text.

It is far superior to "Mafia Monk" and books of that character.
